

December 11, 2007

Dear Chicopee Valued Customer:

Due to increased costs associated with core components of our product line, **Chicopee will be increasing pricing on all wiper products 5-9% effective January 28th, 2008.**

The primary driver in the core component cost increases is a global shortage of staple rayon fibers used in the production of Spunlaced and Adhesive Bond nonwoven fabrics. This has caused an unprecedented increase in fiber cost over the last twelve months, with another significant increase over fourth quarter 2007 prices announced for January 1st, 2008. Other components, such as polyester and polypropylene fibers are increasing as well.

Into stock price lists will be mailed prior to 30 days before the effective date.

All contract pricing arrangements and custom products will also be increased effective on this date, subject to the terms of existing agreements. These arrangements will be provided in writing 30 days previous to the above effective date.

All orders received before 4:00 p.m. Eastern Time, Friday, January 25th, 2008 calling for immediate shipment will be accepted at the current price. Orders placed before this time will be limited to 1/12 of your annual purchases. All orders received after this time will be billed at the new prices.

Thank you for your continued support of the Chicopee product line.

Sincerely,
